IP Enclosures FC 19" Field Cabinet, 24RU, 1375H x 750W x 620D, Ventilated, IP55

IP-1377562-T33

Key Features

- 24RU 19" rack with front and rear rails (EIA-310-D)
- 2.0 mm galvanised steel monoblock body, IP55 and IK10
- Recessed front and rear doors, 3-point key-lock swing handles
- Rain hood, plinth and four vented 125 mm fan/filter cutouts
- T33 Smoke Blue powder coat, 5-year warranty

Overview

IP Enclosures' FC 19" field cabinet houses data network and electrical equipment outdoors, in heavy-duty applications from road and traffic management to intelligent transport systems. This single-bay ventilated model has a 24RU 19" rack, on front and rear rails of 1.5 mm galvanised steel to EIA-310-D, behind recessed front and rear doors.

The monoblock body and plinth are 2.0 mm galvanised steel, polyester powder coated in T33 Smoke Blue, and rated IP55 and IK10 (IEC/EN 60529, IEC/EN 62208). A rain hood and four lifting eye bolts sit on top, and each side has two 125 x 125 mm cutouts for fans and filters (ordered separately) under removable vent hoods. The doors are flush recessed to deter vandalism, with concealed removable hinges, a 110° opening with heavy-duty stays, foamed-in-place polyurethane seals and a 3-point locking system with a key-lock swing handle. A 3.0 mm aluminium split gland plate in the floor takes the cables.

1375 mm high, 750 mm wide and 620 mm deep (800 x 670 mm over the rain hood). 5-year warranty.
