Aluminium Surf Lifesaving Beach Arena Trailer - Model One

AP-T-SLS-BA1

Key Features

- Aluminium mag wheels with aggressive 22/11/10 tyres
- Solid 50mm galvanised axles
- 101x50x10 structural grade 6061-T6 drawbar
- Galvanised hubs with marine bearings and seals
- Stainless hardware supplied with carbon grease

Overview

APAC's Surf Lifesaving trailer series are 100% designed and manufactured in Sunshine Coast, Queensland, purpose built for Surf Lifesaving clubs across Australia.

Crafted over the last six years, we think our Model One is the most versatile and adaptable beach arena layout for your patrol. This model is the full fitout - stainless struts, aggressive tyres, partitioned internal compartments, and more.

Its drawbar is built from 101x50x10 structural grade aluminium (6061-T6) C-section for maximum toughness.

Being Lifesavers ourselves we understand how volunteers treat the clubs equipment, so we manufacture these to last. We're hoping this trailer gets an award at the end of its service, has a plaque made in honour and placed next to your life members.

This trailer can be customised to suit your club's specific requirements, with a huge range of options available. The trailer can also be adapted to the broader SES and emergency services communities.
