Aluminium Surf Lifesaving Beach Arena Trailer - Model Two

AP-T-SLS-BA2

Key Features

- Aluminium mag wheels with aggressive 22/11/10 tyres
- Solid 50mm galvanised axle
- 101x50x10 structural grade 6061-T6 drawbar
- Galvanised hubs with marine bearings and seals
- Economical, budget-friendly build

Overview

APAC's Surf Lifesaving trailer series are 100% designed and manufactured in Sunshine Coast, Queensland, purpose built for Surf Lifesaving clubs across Australia.

Following several design iterations over the past six years, we developed Model Two to be a fit-for-purpose build that represents the best compromise for budget. It's an open-layout all-aluminium design with drainable flooring, tonnes of room for gear.

Being Lifesavers ourselves we understand how volunteers treat the clubs equipment, so we manufacture these to last out of thick, structural grade aluminium. We're hoping this trailer gets an award at the end of its service.

This trailer can be customised to suit your club's specific requirements, with a huge range of options available. The trailer can also be adapted to the broader SES and emergency services communities.
