Single Tube Headframe for AL220 Aluminium Lattice Towers

AP-AL220-HF1

Key Features

- Exceptional strength-weight ratio
- 900 mm height, 50 x 4 mm round tube
- Three 150 x 50 x 6 mm aluminium flat bar gussets
- Low maintenance aluminium construction
- Part of the AL220 Ecosystem

Overview

APAC's AL220 aluminium spigots are designed to attach to the top of any AL220 series lattice tower. The spigot mounts to a standard AL220 bolt pattern with the supplied M12 stainless bolt kit. The term spigot and single-tube headframe are used interchangeably.

Constructed from a 900 mm (0.9 metre) length of 50x4 mm Round Tube and strengthened with 6 mm Flat Bar gussets, ensuring incredible strength while retaining a lightweight design. Each module is chemically cleaned and treated by hand, producing a brilliant finish.
