AL340 Shipping Container Mount

AP-AL340-SCM

Key Features

- Attach AL340 to ISO shipping containers
- Standard ISO corner casting
- Any ISO Series 1 8-foot width
- Part of the AL340 Ecosystem

Overview

The AP-AL340-SCM is an interface bracket that allows an AL340 Base Module to attach to any ISO shipping container. The system has a standard ISO Series 1 8-foot width, which is the standard dimension on 20- and 40-foot freight containers.

This means if your worksite or project has a shipping container, you've now got yourself an engineered tower base.

The container mount hinges in only one axis, preventing the tower from leaning sideways during erection, ensuring the tower can be raised either by hand or with minimal lifting equipment. A pulley at the top of the container allows for winch-raising and lowering of the tower.

Specification

Parameter	AP-AL340-SCM
Physical Specification	
System	**AL340**
Subtype	**Interface Bracket**
Materials	**Aluminium 6005-T5**
Mounting	**ISO Container Twistlock**
Dimensions	**2,415 × 140 × 2,585 mm**
Interfaces	
Installation / Attachment	**Quantity** | **Mounting** | **Notes** 1 | ISO Container Twistlock | Attaching to standard 20/40 ft containers
Available Interfaces	**Quantity** | **Interfaces** | **Notes** 1 | AL340 Clevis-Fork Pattern | For receiving AL340 Base Modules

Subcomponents

Quantity	Item	Materials	Material Finish
1	Welded Assembly 50x50, 12 mm flat bar	Aluminium 6005-T5	Bright/Pickled Finish
4	Shipping Container Twistlock assemblies		

Australian designed and manufactured infrastructure for public safety and first response, built on the Sunshine Coast, Queensland. Need a variation on this design? Our team can engineer it to suit your site.
