Isolation Screen for APAC AL340 2-Panel Solar Frame

AP-AL340-2SPM-IS

Key Features

- RF Isolation Screen for triangular towers
- Attaches to AP-AL340-2SPM underside
- Suits both AL220 and AL340

Overview

This is a perforated mesh screen designed to be attached to the underside of the AP-AL340-2SPM solar mounting frame. The mesh screen attaches using hooks that bolt through the solar mounting rail and secure around the equal-angle.

The mesh is used as both a protective screen that prevents damage to the solar panels from rock-fly or vandalism, and as an RF isolation screen that minimises interference between co-located transceivers or antennas.

Note that this item consists only of the two mesh screen sections and J-Bolts, it does not include the tower mounting bracket.

Specification

Parameter	AP-AL340-2SPM-IS
Physical Specification	
System	**AL220** **AL340**
Subtype	**Attachment**
Materials	**Aluminium**
Dimensions	**1,585 × 2,000 × 30 mm**
Weight	**10 kg**

Subcomponents

Quantity	Item	Materials	Material Finish
2	Perforated Mesh Screens with Equal-Angle Framing	Aluminium	Mill Finish
8	J-Bolts, M8 Nuts	Steel	Hot-Dip Galvanised

Australian designed and manufactured infrastructure for public safety and first response, built on the Sunshine Coast, Queensland. Need a variation on this design? Our team can engineer it to suit your site.
