Wire Rope Thimble - Galvanised Steel, 6 mm

AP-FST-TH-6

Key Features

- Galvanised or Stainless Steel

Overview

A wire rope thimble is a protective metal fitting used to maintain the shape of a wire loop and prevent wear and damage during usage. It provides structural support and helps evenly distribute stress, enhancing the longevity and safety of the wire rope assembly.

Specification

Parameter	AP-FST-TH-6
Physical Specifications	
Subtype	**Thimbles**
Size	**6.0 mm**
Materials	**Steel**
Material Finish	**Hot-Dip Galvanised**
