D-Shackle With Bolt & Split Pin - Galvanised, M12

AP-FST-DSH-12

Key Features

- Galvanised or Stainless Steel

Overview

A D-Shackle with a bolt and split pin is a U-shaped piece of metal secured with a bolt across the opening and a split pin to ensure the bolt remains in place, commonly used in lifting and rigging applications for joining ropes, chains, or cables. The design offers reliable security and flexibility in various industrial and marine environments.

D-Shackles commonly form part of APAC's guy-wire kits.

Specification

Parameter	AP-FST-DSH-12
Physical Specifications	
Subtype	**Shackles**
Size	**M12**
Materials	**Steel**
Material Finish	**Hot-Dip Galvanised**

Variants
