# Guy Wire Cleat - Single Anchor, Galvanised

AP-FST-GWCSA

## Key Features

- Galvanised or Stainless

## Overview

A single-anchor roof cleat is a small hardware component used when installing guyed roof masts, featuring small holes for attachment with standard roof screws and a large hole designed for connecting the turnbuckle hook, ensuring stability and support for the mast/tower. It serves as an anchor point to distribute tension and secure the guy wires effectively.
