Aluminium Surf Gear & Equipment Trailer

AP-T-SLS-GE

Key Features

- Aluminium mag wheels with road tyres
- Dual 50mm galvanised axles
- Galvanised eye to eye load sharing leaf springs
- 125x60x10 structural grade 6061-T6 drawbar
- All-aluminium construction with stainless hardware

Overview

APAC's Surf Lifesaving trailer series are 100% designed and manufactured in Sunshine Coast, Queensland, purpose built for Surf Lifesaving clubs across Australia.

Our all-alloy Gear and Equipment trailer has been designed following consultation with Surf Lifesaving Queensland clubs. This build has a rear swinging lockable gate with lowering tailgate for optional loading ramp. Optional buoy storage in the front drainable area and bits and pieces in racking in the rear.

The model has dual axles with aluminium mags with road tyres, with a spare mounted on the front. All the usual, break-away chains, coupling hitch, 7-pin plug. Ready to hit the road.

At its core, the trailer is a very large box trailer with a security cage enclosure. This means it's more than suitable for a broad range of other community projects, and of course, fully customisable to your application.
