AC60 Collared Roof Mast, 60mm Pole, 2m

AP-AC60-2

Key Features

- 60 mm (OD) Galvanised Steel Mast, up to 3 m
- Affordable aluminium collars
- Sliding collared design with 3x heavy duty stainless foot plates
- Klip-Lok Feet Available

Overview

The AC60 roof mast provides a budget mounting solution for equipment requiring larger diameter attachment. The mast is constructed from 60 mm OD steel pipe, and has two 32 mm OD steel stay-bars that attach via two aluminium sliding collars.

Suitable for a wide range of industrial sensors, antennas, access points, point-to-point gear, cameras, and more. For larger equipment and for coastal regions we recommend upgrading to GC60 which uses higher grade galvanised clamps.

The mast is attached to the roof with the supplied pitch-adjustable stainless steel footplate, and the two stay bars also attach to the roof structure via stainless steel load-spreading plates.

That's it, quick and straight forward to install, does the job. Locally made in Queensland so we're happy to customise to suit your application.

Specification

Parameter	AP-AC60-2
Physical Specifications	
Subtype	**Mounts**
Height (Nominal)	**2 m**
Materials	**Aluminium** **Stainless Steel** **Steel**
Material Finish	**Bright/Pickled Finish** **Galvanised Coating**
Installation	**Roof Mounted**
Mounting	**Screw / Bolt**
Interfaces	
Installation / Attachment	**Quantity** | **Mounting** | **Notes** 6 | Screw / Bolt | Attaches to metal roof using standard roof screws
Payload Interfaces	**Quantity** | **Interfaces** | **Notes** 1 | Pole 60 mm ⌀ | For equipment/brackets 1 | Pole Spigot, 50 mm ⌀ OD | For headframes and pole top mounting equipment

Subcomponents

Quantity	Item	Materials	Material Finish
1	AC60 Centre Mast Foot Plate	Stainless Steel 304	Mill Finish
2	Stay Bar Foot Plate, with M10 Nyloc Nut	Stainless Steel 304	Mill Finish
2	1.6 m Stay Bar 32 O/D x 3 mm Round Tube	Aluminium 6005-T5	Bright/Pickled Finish
1	2.0 m Centre Pole, 60 O/D x 3 mm Round Tube	Aluminium 6005-T5	Bright/Pickled Finish

Australian designed and manufactured infrastructure for public safety and first response, built on the Sunshine Coast, Queensland. Need a variation on this design? Our team can engineer it to suit your site.
